

**GITAI Inc.**

Robotics Startup for  
Space Development

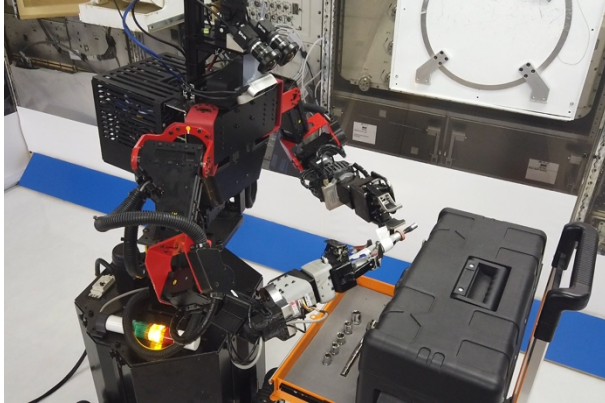

## **HISTORY**

Founded in July of 2016, GITAI Inc. develops telepresence robots specifically for space applications.

## **BUSINESS**

Skilled in the integration of robot systems as a whole, GITAI develops every element that comprises a robot including the hardware, software, and OS. GITAI is looking for partners that are interested in applying our technologies on their space systems. Please drop by our website to have a look at our technology.

# PRODUCT

## **RaaS (Robotics as a Service)**

Purchase the services that can be provided by our robots. Specifically for space applications only.

## **Robotic Arms for Space Applications**

GITAI can provide robotic arms specifically suited for your space system.

HQ Location	Tokyo, JAPAN
Overseas Office	(USA) San Francisco, CA
Year of Establishment	July, 2016
Main Products	<ul style="list-style-type: none"><li>• RaaS (Robotics as a Service) provided by telepresence robots, specifically for space applications</li><li>• Robotic arms for space applications including OOS (On-Orbit Servicing) satellites, lunar explorers, etc.</li></ul>
Main Client	Space station / payload providers; OOS satellite providers; lunar exploration entities; etc.
Company Website	<a href="http://gitai.tech">http://gitai.tech</a>
